Provence Tiles

These beautiful and charming tiles are inspired by French country tiles and the colors and light of Impressionist paintings. The glazes are exceptionally bright and pure. The effect is a dramatic burst of mediterranean color. The tiles feature a hand-molded look, sophisticated but casual.

Glazes in this series have a smooth surface. They feel as good to the touch as they look to the eye. Colors have a pleasant range of variation. These tiles are very hard and durable. They are suitable for use on counters, floors, fireplaces and hearths.

These tiles are vitreous and may be used in wet or frosty applications, inside and outside.

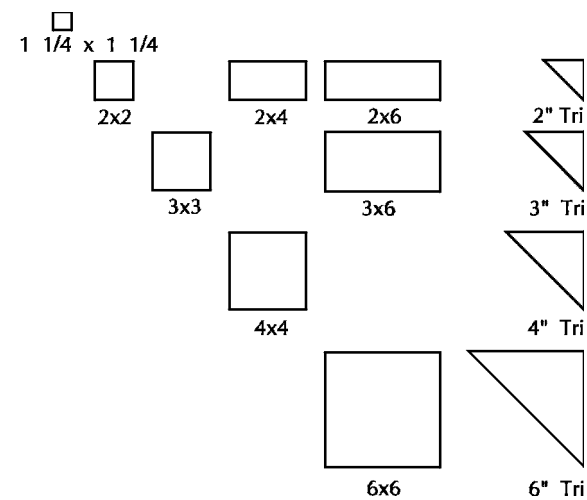

Check Glaze List for glaze names, hardness and crazing.
